### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the references of record neither reveal nor render obvious the recited combination including a micro-electromechanical, hereafter MEMS, switch comprising first and second dielectric substrates, first, second, and third actuation electrodes, a conducting film forming a ground plane, and a cantilever arranged in the claimed manner.

U.S. Patent 6,872,902 to Cohn et al discloses a MEMS device having a cantilever beam [230] but lacking the recited pattern of electrodes. U.S. Patent 6,815,866 to Lee presents a cantilever used in a MEMS device. U.S. Patent 6,768,403 to Hsu et al provides a cantilever-type RF MEMS device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrick G. Wamsley whose telephone number is (571) 272-1814. The official facsimile number is (703) 872-9306. An alternate facsimile number, (571) 273-1814, should only be used for unofficial documents.
